

LIFTOP SDS

SOLID TIRES TO RAISE YOUR PERFORMANCE

GALAXY
APPLICATION SPECIFIC, PURPOSE BUILT.

- Designed for minimum floor marking
- Robust 3-stage construction

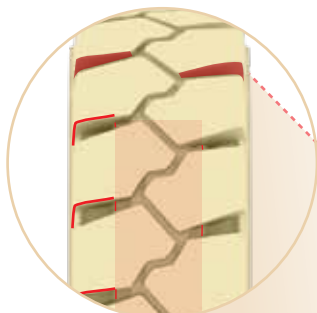

LIFTOP SDS

LIFTOP SDS is the latest addition to the range of solid resilient forklift tires. This non-marking tire is specially designed for forklifts performing severe duty applications in warehouses. The robust 3-stage construction ensures manifold advantages like superior riding comfort, minimum heat build up, enhanced shock absorption and excellent durability. Special tread design with optimum tread depth ensures grip and stability.

TREAD DESIGN

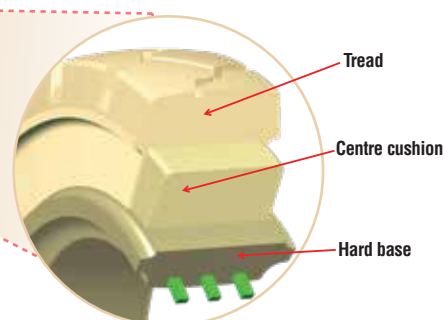

Optimum tread depth for enhanced grip

Curved tread edges protect the tire against load damage

Strong tread block reinforcement
central tie bar stabilises the tread blocks during extreme stress conditions

CONSTRUCTION

3 Stage sturdy construction provides
High-performance compounds in three layers:

- **Tread cap** maximises tire life
- **Centre cushion** ensures enhanced riding comfort
- **Hard base** provides stability and facilitates efficient load transfer to the rims of the equipment

Lesser sidewall angle provides more tread width & better stability

SPECIAL COMPOUND

Improved cut, chip & wear resistance compound ensures minimum heat buildup and excellent durability
